

FINE BLADED

HEAT TOLERANT

LESS FERTILIZER

WEAR TOLERANT

DISEASE RESISTANT

Supreme Turf

Perennial Ryegrass

QUICK FACTS

SUPREME TURF is the result of many years of intensive research. Supreme Turf has an extremely fine texture and smooth feeling. Development in the Northwest for disease resistance to Red Threads, Leaf Spot and Rust makes this the turf of choice. Less fertilizer is needed because of the dark green color. Take off your glass slippers and enjoy the feeling of Supreme Turf under your feet all day long.

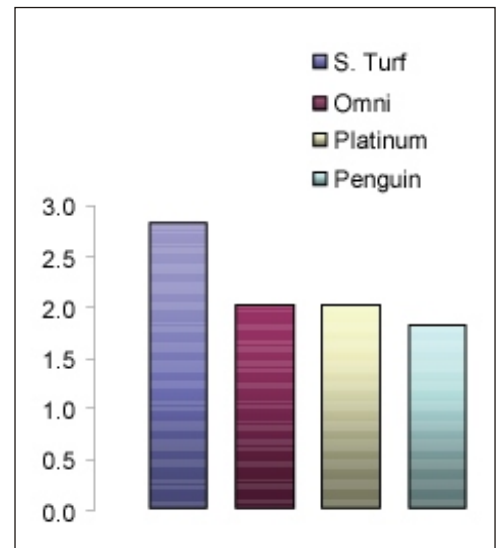

ADAPTATION

SUPREME TURF was developed for permanent poly-species turfgrass blends and mixtures containing improved perennial ryegrass; Kentucky bluegrass; and chewings fescue. Supreme Turf is also used extensively all year long for overseeding programs on golf courses and home lawns either alone or in species mixtures.

- DARK GREEN COLOR
- RAPID ESTABLISHMENT
- EXTRA FINE TEXTURE
- VERY SMOOTH LEAVES
- HIGH DISEASE RESISTANCE
